Institutional Profiles University of North Carolina

1993-94 Edition

Prepared by
Planning Division
University of North Carolina General Administration

THE UNIVERSITY

The University of North Carolina is a multicampus university composed of the 16 public senior institutions of higher education in North Carolina. The campuses, located across the state (see enclosed map), are characterized by diversity. Each is unique in program offerings, admission requirements, student body make-up, campus life, and historical background. This brochure presents general information about and a comprehensive inventory of educational opportunities at the 16 institutions. It is intended to help prospective students choose the institution with the educational program best suited to their needs and interests.

EQUALITY OF OPPORTUNITY

The University of North Carolina and all of its constituent institutions are committed to equality of opportunity.

There shall be no discrimination within the University against applicants, students, or employees on the basis of race, color, religion, sex, age, handicap, or national origin, consistent with provisions of applicable state and federal law.

PROMOTING RACIAL INTEGRATION

The University of North Carolina actively seeks to promote racial integration at each of its constituent institutions.

Introduction

The profiles, tables, and narrative materials in this document were prepared in response to suggestions from school counselors and university staff. Their purpose is to consolidate essential information about the constituent institutions of the University of North Carolina into one publication that may be used in whole, or in part, by school counselors, students and their parents.

The information contained in this document is not exhaustive. The task of providing complete information about academic programs, college costs, and campus life properly remains with each individual campus and we invite you to write or visit campus admissions offices as your interests dictate. The information in this document is provided to introduce students and their parents to each campus and to facilitate comparisons among campuses on measures of special importance to prospective college students.

The data in these profiles are as current as our data collection schedules permit, but no estimates or projections are provided for future years when graduates would enroll. This is because campus policies are always subject to change due to changes in state and federal laws, regulations, and funding levels, and of course, to the campus governance process itself. These changes are seldom large, however, and rarely affect essential differences among the campuses.

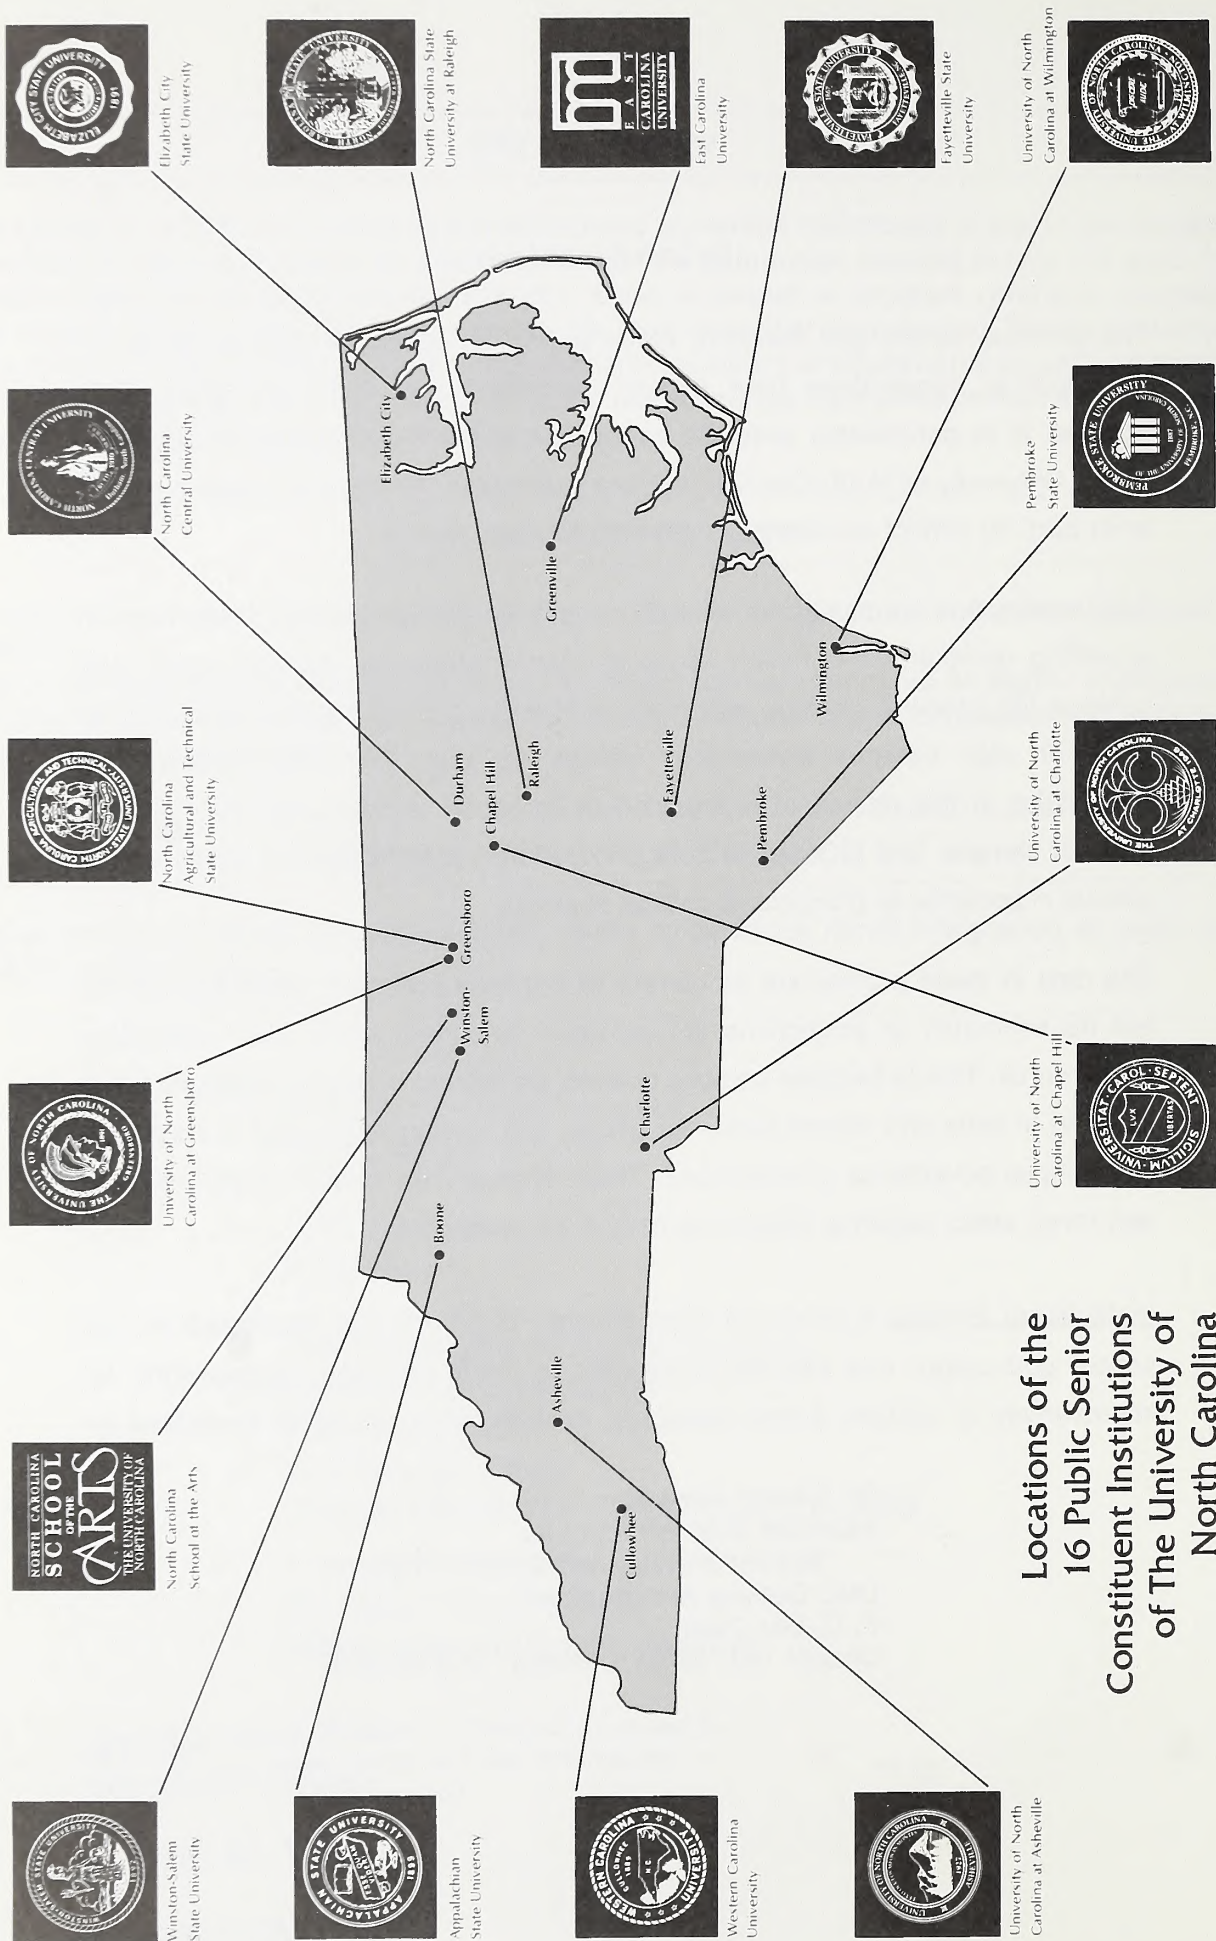

Institutional Profiles is produced once annually in the fall and distributed to high school counselors and transfer counselors in North Carolina. Suggestions for improvement in content, format, schedule, or distribution should be forwarded to:

Dr. George Antonelli
Associate Vice President for
Student Services and Special Programs

Notes and Explanations

Please be aware of the following as you study and use the institutional profiles of The University of North Carolina.

- The abbreviations of the 16 campuses of the University of North Carolina are as follows:

ASU	Appalachian State University	PSU	Pembroke State University
ECU	East Carolina State University	UNC-A	University of N.C. at Asheville
ECSU	Elizabeth City State University	UNC-CH	University of N.C. at Chapel Hill
FSU	Fayetteville State University	UNC-C	University of N.C. at Charlotte
NCA&T	N.C. Agricultural and Technical State University	UNC-G	University of N.C. at Greensboro
NCCU	N.C. Central University	UNC-W	University of N.C. at Wilmington
NCSA	N.C. School of the Arts	WCU	Western Carolina University
NCSU	N.C. State University	WSSU	Winston-Salem State University

- Data in the institutional profiles reflect what is current when taken to press, and may be subject to change over the course of the year.
- Admissions criteria include factors other than high school rank and SAT scores, and may vary from institution to institution.
- High school class rank and SAT score profiles are based on enrolled first-time freshmen who had both sets of data at the time of their admission. Some non-traditional students may not be represented in these profiles.
- The estimated annual student cost includes estimates for a regular nine-month college year. Estimates for summer attendance are not included.
- Data for "percent of freshmen receiving any aid" and "percent of freshmen receiving any need-based aid" are derived from student self-reported surveys and are therefore subject to reporting and sampling errors. Data for "percent of undergraduate students receiving Pell grants" are taken from institutional financial records.
- Advanced Placement (AP) credit information is shown in abbreviated form. Institutional policies represent final authority. An examination in Music Listening and Literature is no longer offered by the College Board.
- The General Administration of the University of North Carolina uses a slightly different system for classifying majors than the individual institutions may use in their publications. A more complete breakdown is shown in the Academic Program Inventory, a copy of which is distributed to high school counselors every even-numbered year. It was necessary to use many abbreviations in presenting these data; a copy of the institution's catalog may provide valuable assistance.
- The titles for persons shown as directors of student financial aid and directors of admissions are generic. Exact titles may vary from one institution to another. Correspondence addressed as shown will reach the proper person.

Brief Description

The University of North Carolina at Asheville is a liberal arts institution primarily offering the baccalaureate degree. In addition to 25 academic departments providing a broad base of undergraduate education, UNCA recently established a Master of Liberal Arts Program. The University has earned national recognition for its model Humanities Program -- a four-course sequence that has been required of all UNCA students for more than a quarter of a century -- and its leadership role in the field of undergraduate research in all disciplines. The University is committed to equality of opportunity and actively seeks to enroll a greater number of African-American and other minority students to further campus diversity and enhance the quality of education.

History

Founded in 1927 as Buncombe County Junior College; became Asheville-Biltmore College in 1936. In 1963, the college became part of the statewide system of higher education. The institution became the University of North Carolina at Asheville in 1969 and was designated a public liberal arts institution within the University of North Carolina in 1992.

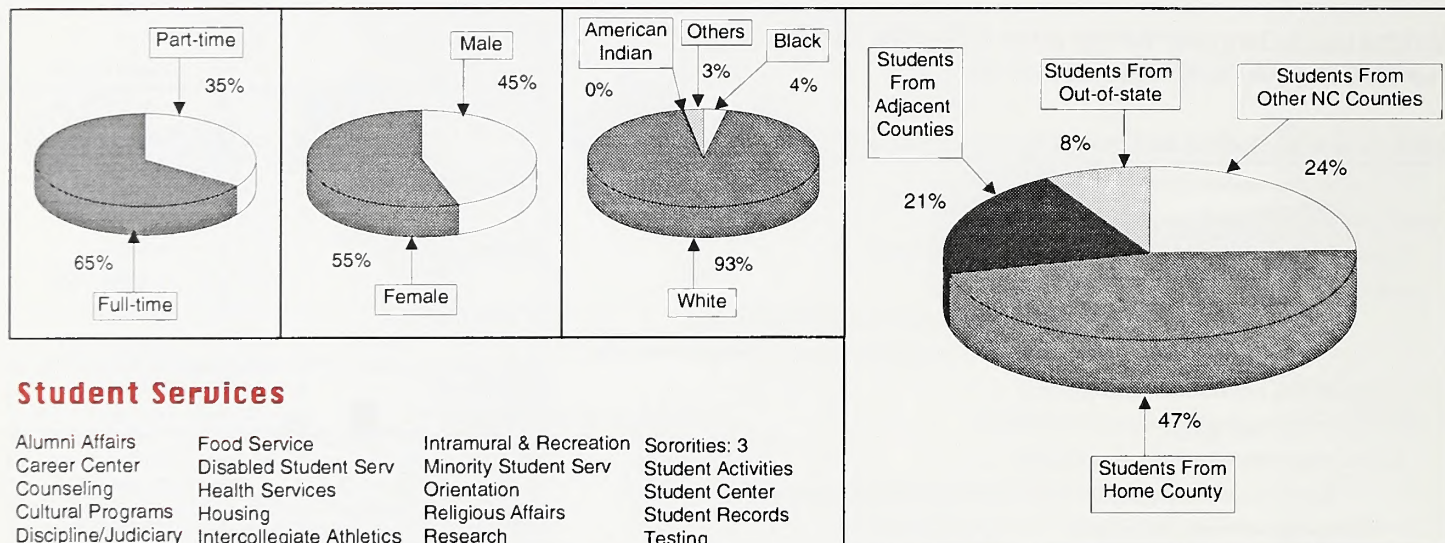

Location

With a city-county population of 175,000, Asheville is the urban center of commerce, culture and tourism in Western North Carolina. Set in the heart of the Blue Ridge and Great Smoky Mountains and surrounded by the largest concentration of national forests on the East Coast, Asheville has been named one of America's "most livable cities" in Rand McNally's "Places Rated Almanac." The UNCA campus occupies 265 wooded acres about one mile from downtown Asheville.
